

.....
You are giving families in Honduras

A CHANCE

to grow their own vegetable gardens, I donated in your name.

THROUGH

a donation of €
part of the necessary costs for seeds, tools, workshops and individual consultations can now be covered.

With the

VEGETABLE GARDENS

people in Honduras benefit from permanent access to nutrient-rich fruits and vegetables. This allows the whole family to eat healthy and thus develop sustainably.

This project is implemented by the non-profit-organization
The Opportunity Project.

Check them out here: www.the-opportunity-project.org

MERRY CHRISTMAS!
